

Vinni de Bruycker

ASEA President

Vincenza DeBruycker...Vinni to all who know and love her...began her career in the settlement industry as a receptionist at ATI Title in 1998. She joined the escrow association early on which put her training on the fast track. After leaving ATI, Vinni joined Fidelity National Title where she remained until her semi-retirement in 2008. She is the only person to hold all five professional designations available in the State of Arizona; Certified Escrow Assistant, Certified Assistant Escrow Officer, Certified Escrow Officer, Certified Senior Escrow Officer and Certified Escrow Instructor.

Vinni has been an integral part of ASEA for many years having co-chaired the Educational Conference Committee in 2003 and served as a Director after that. Currently a member of the Professional Designation Committee, Vinni is working diligently to update the tests as well as establish a web-based system to keep track all Professional Designation holders in the event the State of Arizona ever mandates licensing of escrow officers.

Originally from New York (which is obvious when you hear her speak), Vinni is the mother of three daughters and grandmother to eight lively kids. She enjoys recreational reading and drinking Piña Coladas.
